INTRODUCING UNT SYSTEM CONNECT

The launch of **UNT System Connect**, an intuitive intranet platform, is coming soon! UNT System Connect, our new enterprise intranet, is a commitment to seamless collaboration, easy access to essential information, a robust approach to the security and privacy of employees, and transparent communications across the enterprise.

UNT System Connect launches on **January 24** for UNT System and UNT Dallas, on **February 13** at UNT Denton, and on **March 18** at UNT Health Science Center.

Connect is tailored to reduce email overload by offering a personalized experience for internal communications, employee-only information, and more. With this platform, you can easily find the information that matters to you, ensuring a seamless and efficient workflow. Read the Chancellor's full Connect announcement [here](#).

NEW SOFTWARE IMPLEMENTATION FROM HR

HR is excited to announce a new software implementation, PageUp. This new platform will complement PeopleSoft (EIS) and modernize business processes, focusing on position descriptions, applicant tracking, performance management, onboarding, and succession planning. This initiative is driven by our commitment to enhance the overall user experiences of employees, candidates, and people managers. In the coming weeks and months, you can expect detailed communications for each implementation phase, including information regarding user testing and training schedules.

NEW TEAMS APP UPDATE

The Microsoft Teams desktop application has been updated to a new and redesigned version. **As of April 1, 2024, the classic version of Teams will no longer exist.** The new version of Teams will provide a faster, simpler, and more flexible experience. For questions, or if you have issues during this change, please visit the Service Desk or contact ithelp@untsystem.edu.
