Angie directs two programs she created from grants -- the Integrated Care and Behavioral Health Project (@icbhproject on Twitter) and UNT Classic (@UNTClassic) -- that focus on increasing access to mental health services for underserved communities. She also serves as a fellow in the Office for Faculty Success to help develop and implement the Anti-Bias and Cultural Awareness Program. When she finds free time, you might catch her enjoying this tasty Thai meal, singing and, literally, dancing to her favorite Whitney Houston tune or curling up with her all-time favorite TV drama that these days at least she no longer must record on her -- gulp! -- VCR. One more thing: Catch her at the right time and you might think you're seeing double. You're not. Go ahead, click the button and get to know Angie.

If you'd like to nominate a faculty or staff member to spotlight, please email communications@untsystem.edu.

JOIN IN: Virtual UNT World Town Hall with Chancellor Roe on March 29
UNT System Chancellor Lesa Roe leads this quarter’s virtual UNT World Town Hall at 1 p.m. on Monday, March 29. She will be joined by UNT System Vice Chancellors Sheraine Gilliam-Holmes (Chief Human Capital Officer), Chris McCoy (Chief Information Officer) and Jack Morton (Government Relations). Chief Communications Officer Paul Corliss will moderate the Q&A. Join via Zoom at UNTSystem.edu/MarchTownHall. If you have specific, work-related questions for the panel, please email them to communications@untsystem.edu.

COVID-19 VACCINE AVAILABLE AT UNT: REGISTRATION INFORMATION
Eligible current UNT employees and students, and UNT System employees can now register to be vaccinated at the UNT Student Health and Wellness Center: bit.ly/3tIVJTR. Once you complete the registration process, you will receive further communication about your appointment. Email questions to Stephanie Fields-Hawkins.

As of Monday, March 29, all adult Texans are eligible to receive a vaccine. For more information about other locations to get a COVID-19 vaccination, contact your health plan, primary care provider or click on the county links (you may register in any county):

- Collin County | Dallas County | Denton County | Tarrant County
- Texas COVID-19 Vaccine Provider Locations
- OptumRx Prescription Drug Program Vaccine & General COVID-19 Information
- Avoid COVID-19 Vaccination Scams
UNT System HR is bringing UNT World experts directly to you with this periodic and always timely installation called "Ask An Expert." So, let's ask...

EXPERT: Dr. Tyson Garfield, Assistant Professor of Geriatric Medicine, UNTHSC
EXPERTISE: Primary care and consultant geriatrician with seven years clinical experience

Throughout this ongoing pandemic, we’ve seen just how advantageous it is to have a medical school as a member institution. The UNT Health Science Center has been invaluable to us as well as the community-at-large. With vaccinations now becoming available to all adult Texans starting on Monday, March 29, and thousands getting vaccinated daily in North Texas, we have plenty of questions about what that means for our daily lives. Can those of us vaccinated safely go to the grocery store? Can we dine indoors? What about taking our unvaccinated children to the upcoming Texas Rangers home opener? Dr. Garfield has answers. Just click below to read.

🙌🙌

Engineering professor awarded almost $1 million for cybersecurity research

Professor Ram Dantu in the UNT College of Engineering Department of Computer Science and Engineering is working on four cybersecurity-related projects funded by grants between $200,000 and $300,000 each from the National Security Agency. One project will create a framework for securely and anonymously sharing cell phone data to help identify COVID-19 super-spreader events with results being used by public health departments. The other three projects focus on increasing the number and quality of cybersecurity professionals. Learn more about the grants and the work being undertaken by Dr. Dantu and his Computer Science and Engineering partners by clicking here.

HR UPDATE

UNT System Human Resources has numerous programs and tools available at no cost to assist you with health or well-being issues, work-life balance, financial issues and more. Explore your UNT System benefits, and follow this space weekly for featured programs and offerings.

See a doctor, virtually: The pandemic has made many of us think twice about what normally would be routine decisions -- such as scheduling an appointment to visit a doctor. If you’re not ready to go to the doctor’s office because of the pandemic, alternative options are available via virtual visits and telemedicine. Don’t forego getting the help you need when you need it. Access Doctor on Demand or MDLive for non-emergency care covered by your health plan. Learn more about these great alternatives at no cost to you.
